

## CS12D5

### Connecting cable

- Robustní kovové p evlečné matice
- Flexibilní konstrukce licny
- Dobré odizolovací vlastnosti
- Vysoký stupe krytí

CE

#### Safety instructions

All the installation, connection and safety regulations, as per our technical information, have to be strictly adhered to.

The set-up of the products have to be made by skilled staff, only.  
Repair exclusively made by di-soric.

| TECHNICAL INFORMATION (typ.) | +20°C, 24V DC                           |
|------------------------------|---|
| Princip činnosti             | P ípojný kabel                          |
| Velikost                     | M12 (Závit)                             |
| Tvar                         | P ímý                                   |
| Délka                        | 5000 mm                                 |
| Speciální funkce             | Kovová matice                           |
| Stupe krytí                  | IP 67                                   |
| Vhodné pro                   | P íjímač SLI...                         |
| Materiál                     | PVC (Kabel)                             |
| P ípojení                    | Zásuvka, M12, 12-pólový, Otev ený konec |
|                              |   |
|                              |   |
|                              |   |
|                              |   |
|                              |   |
|                              |   |
|                              |   |
|                              |   |
|                              |   |
|                              |   |
|                              |   |
|                              |   |
|                              |   |
|                              |   |
