

## OSP 50 M 50000-IBS High Performance Photoelectric Sensor, Transmitter

- High functional reserve
- Extremely dirt-resistant
- High operating distance up to 50 m
- Transmitter opening angle switchable
- Transmit power adjustable
- Infrared light

## Safety instructions

The Instruments are not to be used for safety applications, in particular applications in which safety of persons depends on proper operation of the instruments.

These instruments shall exclusively be used by qualified personnel.

| TECHNICAL INFORMATION (typ.)   | +20°C, 24V DC                            |
|--------------------------------|--|
| Operating principle            | Through beam sensors, transmitter        |
| Evaluation                     | digital                                  |
| Size                           | 50 x 40 x 15 mm (Dimensions)             |
| Design                         | cuboid design                            |
| Characteristics                | High transmit power and dirt penetration |
| Emitted light                  | Infrared, 870 nm, clocked                |
| Opening angle                  | 6°/15°                                   |
| Service voltage                | 10 35 V DC                               |
| No-load current                | < 55 mA                                  |
| Operating distance             | 0 50000 mm dependent on the receiver     |
| Sensitivity adjustment         | Potentiometer 4-way                      |
| Shock-/vibration load          | 10 55 Hz / 1,0 mm / 30 g                 |
| Ambient temperature, operation | -10 +60 °C                               |
| Ambient light immunity         | 15 kLx, Sunlight, 2 kLx, clocked light   |
| Protection class               | IP 67                                    |
| Protection degree              | III, operation on protective low voltage |
| Casing material                | Die-cast zinc black lacquered finish     |
| Connection                     | Connector, M12, 3-poled                  |
