

-
- A long, thin, white electronic device with two circular metallic end caps, likely a sensor or actuator. The device is shown horizontally against a white background. The central white section has some faint markings and a small label that reads "G.D. - 1000000". The two circular end caps are metallic and have a central screw-like feature. A thin black cable is visible extending from the left end cap.

+20°C, 24V DC

Size	8 mm (Length/width) Ø 40 mm (Diameter) M4 (thread)
Design	cylinder
Characteristics	robust design
Suitable for	Machine illuminations MB-N ...
Casing material	metal
Fastening force	9,0 kg (2x)
Scope of delivery	2 Magnetic Holder, Fixing material
