cable **Cat5e, PVC, S510**

High-grade, shielded SF/UTP-cable, specified up to 200MHz, with PVC-outer jacket for safe data transmission in the data infrastructure and at office level. The VDE-tested Cat5e cable (according to EN50288 and IEC 61156) meets highest demands on economic efficiency, universality, and performance. Due to the possible bending radiuses, the flexible AWG26/7-cable is best adapted for applications in structured wiring according to ISO/

IEC 11801 as well as EN 50173 in buildings, server- and switch cabinets. Ideal solutions for all applications of class D, according to IEEE802.3ab, VoIP and PoE. The cable is available in grey, yellow, blue, red, and green. Black on request.
